LOGISTICS OPERATIONS

- Storage & handling*
- Quality control of incoming/ outgoing goods*
- Supplementary processing of goods*
- Preparation and mixing of outgoing goods*
- Packaging management*
- Despatch and tracking to final destination*

All about Safim

S.A.F.I.M. is a Limited Liability Company based in None, near Turin, which has been operating in logistics (mainly, cold logistics) since 1934 with warehouses and own transports, and it is highly specialized in the management of perishable goods as fresh, frozen and preserved food.

It was founded as an Anonymous French-Italian Cod Society [see also Our history], later acquired by the Crivello family, which played a vital part in its development by making it a top company for cold logistics.

SAFIM LOGISTICS GROUP is a reference point in Temperature Controlled Logistics across the Piedmont and beyond, with constant monitoring of the goods always guaranteed either during the process of storage and transport.

HISTORY

The 50ies

The economic changes of these years induce the company to change course and SAFIM becomes one of the first Italian cold stores.

In 1959, following the enlargement of the plant, SAFIM asks and obtains permission to managing Customs General Refrigerated Warehouse.

The 80ies

The Crivello family takes over the company and implements the storage services with those of transport and handling of goods.

2005

After 70 years of experience, S.A.F.I.M. opens its new facility in None (Turin), making available to companies all its expertise in the field of cold logistics and refrigerated transports, thanks to a complete range of solutions for the specific needs, and more than 10,000 sqm of cold stores.

2009

S.A.F.I.M. Group celebrates its 75th anniversary and the annual handling reaches **80 M kg.**

2012

Grand opening of the new building which provides office facilities and further 17,500 sqm for the warehouse.

2016

Safim inaugurates its third warehouse, bringing up the storage area to the current 22,500 sqm.

July 20th, 1934

In Avigliana, Province of Turin, was founded the "Società Anonima Franco-Italiana Merluzzi" (that can be translated as Anonymous French Italian Society for Cod, a.k.a. SAFIM) which specializes in processing and drying of cod fish.

INTEGRATED LOGISTICS

«The client knows himself. Our role is to make the most of his and our know-how in order to create a “scientific platform” where nothing is left to a mere chance».

- Alessandro Crivello
(Logistic manager)

Quality ISO 9001
and OSAS 18001

360° SERVICE

The company takes care of all the activities of the logistics chain for food companies wishing to outsource their warehouse.

- Study and realization of an ad hoc logistics project for the customer, including IT interfaces upon advice of our experts on site.
- Receipt of goods, with the possibility of unloading also unpalletized goods.
- Storage in a cool, frost-free environments, depending on the product category.
- Setting up of customer orders by picking or picking & transport documents emissions.
- Customs storage facilities in “suspended duties” regime, by means of special authorizations granted to the company.
- Health practices in the name and on behalf of the client (UVAC), activities in the EEC stamp duty regime.
- Distribution activities, as already outlined above, after the extraction of goods from the warehouse.
- Department of Quality and HACCP available to customers.

Our strengths are the planning and the implementation of logistics platforms for retail chains and trading companies, as well as the management of all categories of goods.

Each platform will be designed together with our clients, which can then rely on a fully qualified and well organized workforce from the moment they entrust us with their goods, and finally reach their own respective customers, or outlets.

All our warehouses comply with the Local Health Authority regulations, and acknowledged EEC No W6K7C

Your goods always safe in CCTV 24 hrs monitored warehouses.

All our facilities and associated equipment are periodically assessed to meet the latest safety requirements.

Always oriented to the Top

«*When an impeccable service meets imperative requirements, excellence arises.*

- Alberto Crivello
(CEO)

Servizio di deposito

For our storage activity, we have 22,500sqm subjected to controlled temperature (which range goes from +4 to -20 ° C) with different cold rooms, all provided with CCTV security systems, where we keep various food and / or raw products.

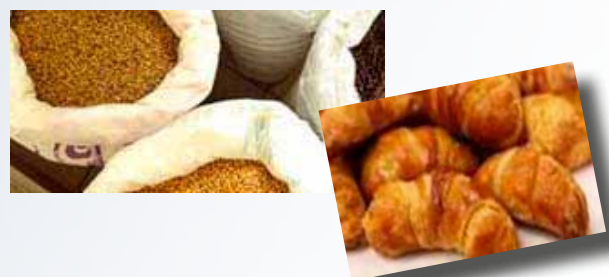

The beneficiaries of our services are those companies that operate in the food industry, dealing with:

- food manufacturing (such as semi-processed or processed, cooked or precooked).
- raw food (such as coffee, cocoa, etc.).
- food preservation (by freezing or canning).
- catering services (ie. restaurants, canteens, etc.).
- distribution and sale (wholesale markets, grocery chains, department stores, etc.).

WE ALSO PROVIDE

Customs warehouse labelled as 'type A' class no. N213 enabling for operations to the foreign state, temporary custody at suspended duty, imports and exports, freight forwarder supplied.
